

WHAT YOU NEED TO KNOW: Don't Let Government Take Over Child Care

MASSIVE GOVERNMENT FUNDING = MASSIVE GOVERNMENT CONTROL

- If government is the primary funder of child care, it will impose onerous regulations on providers and limit parents' options.
- Even if this didn't take \$200B+ from taxpayers, it would still be a bad idea.
- We don't want the government controlling the education and upbringing of our babies and preschoolers.

THE MANY PROBLEMS WE SEE WITH K-12 WILL NOW PLAGUE 0 TO 5-YEAR-OLDS

- CRT and politicized curricula will come to preschools.
- Providers unwilling to accept government requirements (potentially faith-based schools) will go out of business.

(More on reverse)

WHAT YOU NEED TO KNOW: Government Controlled Child Care Doesn't Help Kids

HEAD START HAS FAILED

- Congressional studies of Head Start show no lasting gains.
- There is no evidence that more government child care and preschool will better serve most children.

THERE ARE BETTER WAYS TO SUPPORT FAMILIES

- Give tax relief to families.
- Reduce regulations that make daycare costly.
- Don't push parents to make one care decision: using government-sanctioned child care.
